Forecast for Tuesday 06 Jun 2023

Weather: A cloudy start to the day however, the cloud will quickly disperse by mid-morning and will give way to a warm and dry day with prolonged periods of sunshine. Holding onto clear skies for the first part of the night, with some late evening sunshine but low cloud likely to return from the east later overnight.

Chance of cloud-free hill tops above 600m: 40% at first, though this risk mainly in the east, all areas increasing to 100% by mid-morning.

Low cloud and visibility: Generally good or very good but mediocre in cloud in the east at first, with cloud base as low as 500m. However, this is expected to lift and clear by mid-morning, with excellent visibility for the reminder of the day.
